The Tivoli Audio Story

Tivoli Audio is a world leader in the design and manufacturing of table radios. We create these products with the belief that compact radios can be stylish and simple to use while delivering outstanding audio performance at an affordable price.

We offer a wide range of unique home and portable audio products, including our highly acclaimed Model One, iSongBook, and Music System radios. Each of Tivoli Audio's radios incorporates a high sensitivity tuner and the ability to listen to MP3/iPod players.

I founded Tivoli Audio in 2000, with the design philosophy of creating affordable, attractive, high-quality products. It is, in part, a result of my thirty-year association with Audio Hall of Fame member Henry Kloss. Henry and I both held senior

management roles at Advent and Kloss Video and went on to co-found Cambridge SoundWorks where we developed high-value home audio and multimedia systems that became many of today's best-selling products.

Tivoli Audio is committed to providing consumers with the best radios money can buy. It is what we do and what we are the best at.

We invite you to spend some time reviewing our product line in this catalog. If you have questions, please visit our website at tivoliaudio.com, or better yet, call us at 1.866.TIVOLI.5. We would enjoy hearing from you.

Best wishes,
Tom DeVesto
